

NASA SAFETY REPORTING SYSTEM PROCESSING

Objectives:

- To provide a voluntary, anonymous, and responsive means for reporting NASA related safety concerns;
- To provide a means for reporting NASA related safety concerns that have been reported locally and no action has been taken, that action taken is considered unsatisfactory, or if there is fear of reprisal for reporting safety concerns locally; and
- To provide a means of risk reduction in the design, manufacture, and operation of NASA and NASA related programs.

Notes:

1. Actionee official concurrence must be one level higher than the corrective action decision level.
2. Distribution shall include the Director(s) of all affected organizations including actionee, the Director of S&MA, and the NASA Headquarters NSRS Chairperson.
3. NSRS documentation and information is sensitive in nature. Distribution shall be controlled.
